## PROFESSIONAL EXPERIENCE

ASTRAZENECA PHARMACEUTICAL COMPANY – Wilmington, DE July 2017 – Present  
*Global, science-led biopharmaceutical industry leader, with innovative medications used by millions of patients.*

### Clinical Science Liaison – Respiratory / US Medical Affairs

Cultivate relationships with primary care providers, specialists, and other healthcare customers in Wisconsin, Eastern Iowa, and Western Illinois to provide clinical / scientific information and product updates for treating severe asthma and COPD.

- **Education & Service:** Develop and lead patient-focused in-services and individualized trainings on respiratory disease states and on benefits / use of injectable biologics and inhalers. Respond to customer inquiries, ensuring current and balanced clinical / scientific data backup for product support.
- **Team Collaboration:** Gather customer feedback and competitor product insights to support internal medical / commercial strategy development in alignment with regulatory compliance and corporate standards.

AURORA HEALTH CARE 2014 – 2017

SOUTH DIVISION CARDINAL CLINIC – Milwaukee, WI (2014 – 2017)

JAMES MADISON ACADEMIC CAMPUS CLINIC – Milwaukee, WI (2016 – 2017)

### Nurse Practitioner

As sole NP, provided primary care services in high school clinic settings for diverse student population affected by high-risk socio-economic circumstances. Directed RN and LPN.

- **Education:** Taught, counseled, and empowered patients regarding medical diagnoses / treatments, preventative health measures, and wellness lifestyle choices. Developed and led classroom presentations.
- **Clinic Service & Leadership:** Obtained patient histories, conducted health assessments / sports physicals, diagnosed conditions, and developed treatment plans. Managed daily operations in clinic manager absence.

### **Nurse Practitioner (Continued)**

---

- **Community Collaboration / Partnership:** Interacted via phone and email with physicians, parents, school psychologist, social worker, and local agency resources to ensure holistic approach to treatment and follow-up.
- **Crisis Management & Testing:** Oversaw school's Code Blue team activities and AED maintenance. Managed urgent medical situations. Ordered and interpreted urine and blood tests.
- **Records Maintenance:** Documented data required for Medicaid and other reimbursement purposes. Maintained accurate records on student immunizations.
- **Clinic Start-up:** Helped open the James Madison Academic Campus Clinic; worked with vendors and corporate office to acquire equipment and supplies, set up exam room, and established charting logistics.
